NAME: SANNIDHYA DAS

BATCH: GRIPNOVEMBER23

TASK 4: EXPLORATORY DATA ANALYSIS – Terrorism

Introduction:

Hello everyone, my name is Sannidhya Das. I am currently pursuing my M.Sc degree in Statistics. I completed my task on Data Science and business analytics. I completed task 4 EDA on Terrorism.

I was provided with a dataset on global terrorism, in which I had to answer several questions on things like the terrorist hot zone, all security concerns and insights from the zones, the most impacted nation, the number of individuals who died as a result of these activities, etc. In this project, I used Python programming to analyze.

So further wasting time let's get started
